EDUCATION

Bhagwan Parshuram Institute of Technology, New Delhi

2022 – 2026

B.Tech (Information Technology), CGPA - 9.57/10

New Delhi

DAV Public School, Pitampura

2021

CBSE Class XII, Percentage - 91.40%

New Delhi

DAV Public School, Pitampura

2019

CBSE Class X, Percentage - 93.60%

New Delhi

EXPERIENCE

Compro Technologies

Jul 2026 – Present

Software Development Engineer

- Developing and maintaining production software features, with a focus on backend development, debugging, and reliable implementation.
- Taking ownership of assigned features from requirement analysis and implementation through testing and deployment.
- Collaborating with cross-functional team members to troubleshoot issues, improve application functionality, and deliver scalable solutions.
- Participating in code reviews and following engineering practices to improve code quality, maintainability, and performance.

Compro Technologies

Jan 2026 – Jun 2026

SDE Intern

- Contributed to backend development and feature implementation while gaining hands-on experience with production software systems.
- Worked with the development team to understand existing codebases, investigate bugs, and implement assigned enhancements.
- Performed testing and debugging to identify issues and ensure the reliability of implemented features.

PROJECTS

Status Tracker | *Node.js, Firebase, Cloud Firestore, Google Chat Webhooks*

- Developed a workplace availability tracking system to manage employees' WFH/WFO status in real time.
- Integrated Google Chat Webhooks to capture status updates from chat messages and synchronize them automatically with the application.
- Stored user profiles and status history in Cloud Firestore, enabling fast retrieval and real-time synchronization across users.
- Built dashboards to visualize employee availability, WFH/WFO statistics, and historical activity.
- Designed a scalable event-driven workflow for processing webhook requests and maintaining accurate status records.
- **Live Demo:** [Click Here](#); **GitHub:** [Click Here](#)

Quiz Master | *Flask (Python), Vue.js, Redis, Celery, Bootstrap, PostgreSQL*

- Developed a full-stack quiz management system with **Admin and Student dashboards**, supporting role-based access.
- Admin features: create/edit quizzes, manage users, schedule quizzes, and track performance.
- Student features: take quizzes, view scores, track progress, and analyze performance.
- Implemented **backend asynchronous tasks** with Redis and Celery for real-time score computation and analytics.
- Designed **relational database models** using PostgreSQL for quizzes, questions, users, and results.
- Ensured **data integrity** and proper relationships between tables.
- Optimized performance with **Redis caching** for frequently accessed data.
- **Live Demo:** [Click Here](#); **Credentials:** Admin – admin/vm123, User – Vansh21/vansh

Vehicle Parking App | *Flask, Vue.js, Redis, Celery, PostgreSQL, Bootstrap*

- Built a full-stack multi-user parking management platform with Admin & User roles, supporting role-based access.

- Implemented automatic allocation of the **first available parking spot** to prevent booking conflicts.
- Added **Redis caching** to reduce DB queries for spot availability & user history, improving performance significantly.
- Developed **async background jobs using Celery** daily reminders via mail, monthly parking report, and on-demand CSV export.
- Designed a normalized **relational DB schema** enforcing foreign key constraints for lots, spots, users, and reservations.
- Created responsive **Admin/User dashboards** displaying spot status, usage analytics, and billing.

SKILLS

Languages: Python, C, C++, JavaScript, SQL

Backend: Flask, Node.js, Express.js, REST APIs

Frontend: HTML, CSS, Bootstrap, Vue.js, Nuxt.js

Databases: PostgreSQL, SQLite, DynamoDB

Cloud & Tools: AWS (S3, SNS, SQS, IAM), Git, GitHub, Postman

Caching & Messaging: Redis, Celery

Soft Skills: Team Leadership, Communication, Time Management, Problem Solving

ACHIEVEMENTS

- Consistently top performer in IT department, securing 1st rank in 2nd and 3rd year and 2nd in 1st year.
- Achieved top 5% rank out of 1 million candidates in Joint Entrance Examination (JEE) Mains 2022.
- Collaborated in teams to analyze business case problems (ZS Campus Beats, AceCloud Hackathon), contributing requirement insights and solution design.

RELEVANT COURSEWORK

Data Structures and Algorithms, Database Management Systems, Software Engineering, Object-Oriented Programming (OOP)

CERTIFICATIONS

- **Master Python by Andrew Ng** – Udemy certification covering Python fundamentals and hands-on projects.
